

I am a listener/supporter of KLOVE FM Radio. Although there are other Christian radio stations in the area, KLOVE is very important as it reaches some of the surrounding areas that the others do not. Additionally, it provides programming not available on the local stations and is supported by listeners. I feel that the community would be seriously impacted should national stations such as KLOVE be removed. The staff of KLOVE provides resources not available in small communities such as where I live and we are fortunate to have stations such as KLOVE. It is for that reason that I support the efforts of KLOVE.
